Idea and Aim

Many parents know how tricky childcare during a meeting or a seminar at the university can be. University buildings rarely offer possibilities for parents to play or relax with their children.

To address this challenge, the TUM School of Education established a Children's Playroom at the faculty, which may be used by students / employees and their children. This service provides a unique support for the compatibility of family and work.

Possible Use

- Room to relax for parents and mothers-to-be
- Room to work, while the children play
- Room to meet with (few) colleagues, while the children play
- Room to book a professional nurse to take care of the child during meetings or seminars

Childcare Service

The Children's Playroom offers a flexible childcare service: in collaboration with the agency RUF, professional nurses can be booked in advance.

The financial contribution is 6 € / hour for students and 9 € / hour for employees, accompanying siblings 50% respectively. An invoice will be issued every three months.

Please contact familyroom@sot.tum.de to book the childcare service.

* The term parents stands for those responsible for childcare
